DESCRIPTION

Duratec was engaged to recoat the pitched roof of the main warehouse using rope access and to reclad sections of the roof that had corroded. The scope included:

- ▶ Removal of large redundant flues with a crane and rope access, followed by patching of voids.
- ▶ Two coats spray applied by painters over 2000m².
- ▶ Hot works involved oxy-acetylene cutting for flue removal.
- ▶ 100m² of corroded roof sections replaced.

HIGHLIGHTS

- ▶ Works completed within a 2 week period without incident.

IMAGES (FROM TOP TO BOTTOM)

- ▶ Aerial view of Mintech Chemicals' roof.
- ▶ Rope access working at height painting the pitched roof.
