SPECIALIST ACCESS - SAFETY COMPLIANCE

PROJECT

Western Power Height Safety Rollout

CLIENT

Brookfield Global Integrated Solutions c/o Western Power

DURATEC CONTACT

Jonas De Prose 0421 395 171

DESCRIPTION

Duratec was engaged to inspect roofs and other areas requiring height safety for compliance. The scope of works included the installation of ladders, platforms, static lines and anchor points across the metropolitan region of WA.

HIGHLIGHTS

- ▶ Duratec secured a three year contract for height safety services.
- ▶ Inspections found non-compliance of AS1657. Duratec engineered structural solutions for rectification.
- ▶ Brittle and fragile roofs identified with new signage placed.
- ▶ Anchor points and height safety components replaced when found not to standard.
- ▶ Consistency achieved across Western Power's building assets within two months.

IMAGES (FROM TOP TO BOTTOM)

- ▶ Installation of ladders and platforms in locations without safe access.
 - ▶ Installation of anchor points.
 - ▶ Mesh installed to skylight covers with no safe access points.
